Subject: RE: UNICO mining permit: Bromide Basin

CC: <kewilson50@gmail.com>, <kenw@unicomining.com>, <mlopez@unicomining.com>...
Bob,

I just got your voicemail..thank you.

I think UNICO should go ahead and clean up all the outstanding issues with the State of Utah, including closing the mine openings.

It is my understanding that they can either close them up with bars/gates or they can just close them up with earth.

Either one is fine with us.

I think by UNICO dealing with all the issues and getting a clean bill of health it will provide us a better point to start our next discussions.

I am traveling tomorrow but call if you need me.480-459-1111.

Bruce

Dear Mr. Whiting:

Thank you for your email message last Friday. I just left a voicemail message on your cell phone to let you know that Unico will likely have employees on site beginning tomorrow to clean up the oil spill, and remove some junk from the Kaibab Mine property. The one thing on the Utah Division of Oil, Gas and Mining's list that Unico does not plan to do is to put bars on all of the openings to the mine. We do not anticipate that you will want the openings to be barred.

If you have any questions, please let me know.

0003

Sincerely,

Bob

Subject: UNICO mining permit: Bromide Basin

(actual letter attached)

Re: UNICO Incorporated, Assignment of Mining Permit, Bromide Basin Mine

Mr. Wilkinson,

I am in receipt of your letter dated October 8, 2008, wherein you offered to assign the mining permit for the Bromide Basin Mine, issued by the Utah Division of Oil, Gas and Mining to UNICO Incorporated, to Kaibab.

We have discussed this issue with Paul Baker, at the Minerals Reclamation Program, Utah Division of Oil, Gas and Mining, and he has informed us that the state has found damages left by UNICO on the property and that there are outstanding citations that need to be resolved by UNICO prior to any transfer and release of the bond. As soon as the spill is cleaned up and the necessary work is done to satisfy the State of Utah, we would like to discuss the transfer of the permit.

Please inform your client that they have permission to enter the property in the Bromide Basin at anytime to do this work and get these citations resolved. All we ask is a telephone call, a few days in advance, giving us notice that you will be on the property doing this work. Please call my telephone at 480-459-1111.

Sincerely,

R. Bruce Whiting
